

**BANCADAS****DESCRIPCIÓN COMERCIAL:**

La dima universal SUPERSTAR que está estudiada para las mínimas particularidades y resolver toda la problemática que surja durante la reparación de la carrocería, en este caso se adapta a la bancada de Carbench mediante unas cremalleras laterales que se sujetan a dicha bancada elevador.

Las pedanas de subida y de posicionamiento de la que está dotada, el movimiento de las traviesas y de los carros de situación de útiles de dima, su fijación, la inserción de las guías sobre los soportes, la posibilidad de realizar tiros hacia abajo y empujes hacia arriba directamente desde la propia dima hacen de ésta un instrumento único y original.

CARACTERÍSTICAS DEL EQUIPO:

- El equipo fundamentalmente se compone de:
 - Dima universal SUPERSTAR, compuesta de 5 traviesas, 10 soportes correderas y carro expositor completo de accesorios.
 - Subchasis de adaptación.
 - Kit de cremalleras.
